CONDITIONS OF APPROVAL

The application to use alternate design, material and/or construction method may be approved by the Chief Building Official if sufficient evidence is provided that demonstrates:

- The proposed design complies with the intent of current code provisions.
- The proposed material or construction method is equivalent to code in:
Suitability, Strength, Effectiveness, Fire Resistance, Durability, Safety, and Sanitation.
- All features of the approved application, including a copy of the application, must be incorporated into the drawings.
- **Disclaimer:** Applicants must recognize that approval of the proposal for Alternate Design, Materials, or Method of Construction is based on the documentation provided at the time of approval. If at any point during the review or inspection process, the Chief Building Official, or the Building Inspector, notices deviations from the original application, the approval becomes null and void. The applicant would then need to either revert to the original design, material, and/or construction method or file a new application based on the revised plans.
